Profile

Backend Developer with 2+ years of experience, currently at TIX ID. Skilled in Golang, PostgreSQL, Redis, and event-driven systems (RabbitMQ, Kafka). Experienced in designing scalable services with RESTful APIs and gRPC. Passionate about clean architecture and cloud-native development.

Professional Experience

Backend Engineer

05/2024 – 12/2025 | Jakarta

TIX ID

- Built and maintained scalable backend services for movie and food ordering using Golang.
- Collaborated with Product and cross-functional teams to deliver features aligned with business goals.
- Applied TDD and implemented unit tests to ensure code reliability.
- Refactored legacy code to improve performance and readability.
- Designed High-Level Design (HLD) documents and reviewed system architecture.
- Enhanced modularity and deployment efficiency in large multi-team codebases.
- Worked with PostgreSQL, Redis, RabbitMQ, Kafka, gRPC, Docker, Git, and CI/CD.

Backend Engineer

11/2022 – 05/2024 | Jakarta

Waresix

- Developed and optimized backend services for logistics operations.
- Applied TDD and wrote unit tests for new and existing features.
- Improved API performance and service reliability through code refactoring and bug fixes.
- Created HLD documents and participated in technical reviews.
- Contributed to scaling large backend systems and improving maintainability.
- Researched new technologies to enhance development workflows.

Education

Bachelor Of Informatics Engineering

2017 – 2022

Hasanuddin University 

- Cumulative GPA: 3.81/4.00

Skills

Golang • PostgreSQL • Redis • RabbitMQ • Kafka • gRPC • RESTful API • Docker • Git • Linux • Microservices • Event-Driven Architecture • Clean Architecture
